- Lead daily operations for a high-volume bar and live music venue.
- Manage hiring, training, scheduling, inventory, and staff performance.
- Oversee budgets, P&L, vendor relations, and cost-control initiatives.
- Drive exceptional customer experiences and team development.
- Partner with ownership to improve efficiency and drive business growth.

GENERAL MANAGER

Gibson Street Bar | Austin, TX
Feb 2020 - Dec 2022

- Led daily operations for a high-volume hospitality and entertainment venue.
- Responsible for hiring, training, scheduling, inventory, vendor relations, operational compliance, and customer experience.
- Managed staff performance, operational consistency, and service standards in a fast-paced environment.
- Partnered with ownership to drive operational improvements and revenue growth.

COMMUNICATIONS SPECIALIST (PART-TIME)

Enigma Advisory Disaster Recovery | Austin, TX
2020 - Present

- Support communications, training materials, documentation, and operational initiatives for disaster recovery projects.
- Collaborate with leadership teams to improve communication effectiveness and project execution.
- Continue supporting the organization on a part-time basis while managing hospitality and entrepreneurial ventures.

FOUNDER & OWNER

Moon City Market LLC | Austin, TX
2025 - Present

- Founded and operate a technology-enabled micro-market business using smart self-service coolers, cashless payments, and inventory analytics.
- Manage vendor relationships, pricing, placement agreements, and operations.
- Drive sales growth, optimize operations, and expand into new locations.

PRODUCTS & VENTURES

NOIZE AI-POWERED TREND INTELLIGENCE PLATFORM

AI-powered platform that aggregates trending topics, news, and online discussions into actionable content strategies. Provides content blueprints, posting strategies, tools, and AI prompts to help creators and businesses move from trend to ready-to-publish content faster.

LUMOS SMART LIGHTING AUTOMATION PLATFORM

IoT lighting control platform integrating Wi-Fi LED devices, automation workflows, and mobile interfaces for seamless smart lighting experiences.

PROJECT SENTINEL AI-ASSISTED CODE REVIEW PLATFORM

AI-assisted code review and project analysis platform that helps developers maintain quality, identify issues, and streamline workflows.

RETIRERIGHT FINANCIAL PLANNING PLATFORM

Retirement planning and financial visualization application focused on forecasting, scenario planning, and smarter decision making.

I build businesses, lead teams, and use technology to solve operational problems and create meaningful solutions.
